## PROFESSIONAL EXPERIENCE

### Teaching Assistant – Engineering Design II

Thompson Rivers University

Kamloops, CA

Jan 2025 – Apr 2025

- Guided 30+ students in Arduino Mega 2560 labs via one-on-one coaching on key programming concepts.
- Assisted students with structured debugging of Arduino projects, boosting lab grades by ~20%.
- Evaluated 10+ weekly lab assignments, delivering feedback to enhance student outcomes and uphold integrity.
- Collaborated with the course instructor to create a positive learning environment and assist in managing lab activities effectively.

### Computer Vision & Machine Learning Engineering Intern

Business and Technology Services

Astana, KZ

Jun 2024 – Aug 2024

- Trained YOLOv8 model, improving sitemap orientation prediction accuracy by 7%.
- Prepared labeled image datasets (1000+ images), applying different labeling tools.
- Implemented segmentation algorithms (segment-anything) to enhance feature extraction.
- Executed data preprocessing and augmentation using OpenCV, streamlining ML workflow efficiency.

### Smart Meter Data Analyst Co-op

BC Hydro

Langley, CA

Sep 2023 – Apr 2024

- Monitored smart metering networks (2M+ devices), diagnosing malfunctions to maintain 99% uptime.
- Performed root cause analysis with SQL and Power BI, reducing recurring device issues by 20%.
- Developed PowerShell scripts automating routine diagnostic checks, reducing manual processing time by 50%.
- Designed interactive Power BI/Tableau dashboards for device analytics, enhancing operational visibility.
- Coordinated with field crews on device installations, accelerating deployment schedules by 5%.
- Managed data operations using SQL and Excel, generating accurate weekly device health reports for stakeholders.

### Research Assistant

Thompson Rivers University

Kamloops, CA

Nov 2022 – Mar 2023

- Collaborated in Django-based web app development and backend API implementation, enhancing app scalability.
- Analyzed biomedical datasets using Pandas, streamlining data preprocessing for ML accuracy.
- Built predictive ML models and implemented SHAP for explainability, achieving 90%+ accuracy.
- Developed interactive dashboards using Python Dash, and improved user engagement by 20%.
- Co-authored and presented research on ML applications in biomedical analysis at IEEE CIBCB 2023 conference.

## EDUCATION

### Bachelor of Software Engineering

Thompson Rivers University

Kamloops, CA

Sep 2020 – May 2025 (exp)

- GPA: 4.07/4.33; Dean's list on all attending semesters

## TECHNICAL SKILLS

**Technical Proficiency:** JavaScript, HTML, CSS, React, Git, CI/CD, Docker, Python, Flask, Django, C++, SQL, MongoDB, AWS, PowerBI, Tableau, Excel, MATLAB, Java.

**Development:** Full-Stack Development, API Development, Web Applications, AWS Cloud Architecting, Unit Testing, Machine Learning.

## PROJECTS

### Rock Classification System

Thompson Rivers University

- Built a full-stack web application with React (frontend) and Flask (backend), connected through REST API.
- Trained YOLOv8 model on self-collected data and integrated it with the web app.
- Stored images in AWS S3 and managed data with MongoDB database for efficient storage and retrieval.
- Practiced the Agile development process to manage tasks, set milestones, and ensure efficient project progress.

### E-commerce Web Application

Thompson Rivers University

- Developed a full-stack e-commerce platform using the MERN stack (MongoDB, Express.js, React, Node.js) for browsing, purchasing, and managing electronic items.
- Designed and implemented RESTful APIs to ensure smooth data flow between the front-end and back-end.
- Optimized the database schema with MongoDB for efficient storage and retrieval of product details, user accounts, and order history.
- Integrated user authentication and payment processing to enhance security and usability.

## AWARDS

- Engineering and Geoscientists BC – South Central Branch Engineering Award (\$1000) - Fall 2022.
- 2x Undergraduate research apprenticeship award – Thompson Rivers University – Nov 2022 & May 2023.
- TELUS Excellence in Science Award (\$1000) – Thompson Rivers University – Jan 2025
